Instructors: Brent Beissel, Reed Smith* Nikki Crighton-Vescio, KPMG* Daniel Stanley, Honigman*
9:50 – 11:00	Emerging Issues Associated with Unclaimed Property <i>(joint session with Income Tax School)</i> States are very aggressive in the unclaimed property area. They are shortening dormancy periods, asserting claims to new types of obligations, and hiring contingent fee auditors. Some states consider unclaimed property a source of revenue rather than acting as trustee for the true owners. While unclaimed property is not a tax, a company's tax function frequently handles the audit. Just when you thought dealing with a state income or transactional tax audit can be burdensome, wait until you wrestle with an unclaimed property audit with no statute of limitations or uniform procedures, limited protest rights, and very little guidance. This session will provide an overview of the states' unclaimed property practices and cover recent unclaimed property legislation and litigation. The session will bring you up to date on the latest unclaimed property issues. Instructor: Michael Giovannini, Alston & Bird* Tiffany Li Qu, Alston & Bird*
